SUMMARY

Full-Stack Web Developer with 6+ years of experience building and maintaining production web applications across client and business environments.

Experienced in modern JavaScript ecosystems including TypeScript, Next.js, Lit, and Shopify development, with a strong focus on building scalable user interfaces, reusable component systems, and high-quality user experiences.

In addition to frontend development, I contribute to backend features, API integrations, database-driven applications, Laravel-based solutions, and deployment workflows. Passionate about solving real business problems, improving development processes, and continuously learning new technologies.

PROFESSIONAL EXPERIENCE

Creoshift SAL, Lebanon

February 2021 – Present

Frontend Web Developer

- Deliver custom Shopify storefront features, theme customizations, product configurators, and user experience improvements tailored to client requirements.
- Develop and maintain production web applications using Next.js, Lit, TypeScript, JavaScript, HTML, and CSS.
- Design and implement reusable component systems that improve maintainability, consistency, and development efficiency across projects.
- Create interactive web experiences and 3D visualizations using Three.js for specialized client projects.
- Contribute to full-stack functionality using Laravel, Livewire, Tailwind CSS, and MySQL-backed applications.
- Integrate internal and third-party APIs to support business processes and features.
- Leverage AI-assisted development workflows to accelerate prototyping, debugging, testing, and implementation while maintaining code quality and project standards.
- Collaborate with designers, developers, and clients to deliver production ready solutions within business requirements.
- Participate in architecture discussions, feature planning, debugging, optimization, and continuous product improvements.

Freelance, Lebanon

January 2021 – Present

Web Developer

- Deliver custom websites and web applications for clients across multiple industries.
- Design, develop, deploy, and maintain complete web solutions including frontend interfaces, backend integrations, APIs, and hosting environments.
- Create interactive digital experiences including 3D virtual tours and AI-assisted learning applications.
- Produce supporting digital assets and marketing materials using Adobe Creative Cloud tools.
- Collaborate directly with clients to transform business requirements into practical technical solutions.

Wavenet, Canada

July 2020 – January 2021

Web Developer

- Developed and maintained responsive websites across desktop, tablet, and mobile devices.
- Integrated frontend interfaces with backend systems and data-driven functionality.
- Assisted with database-related operations and application maintenance.

- Collaborated within a development team to deliver production-ready web solutions.

TECHNICAL SKILLS

Frontend Development: TypeScript, JavaScript, Next.js, Lit, Shopify, Tailwind CSS, HTML/CSS
